Rohit Kalkhaire
Software Developer

To work with such an organization where I can use my skills and get dynamic environment to learn and grow.

Experience

○ **Feb 2021 - May 2021**

Bolt IOT , Bangalore (WFH)

Web Developer (Internship)

They provide me training of 2 months and given me project as a task that was to design sliding gallery that will show the image thumbnail on the top and when we click on the thumbnail, it will show the image just below the thumbnail.

Projects

- **Online Movie-Ticket booking system (React and Spring):**

  This is Online Movie-Ticket Booking is a software platform that enables users to efficiently manage their operations using Crud operation. In this user will be able to book movie ticket while admin will able to add movie and show ticket.

- **Online Hotel Management System (React):**

  This online hotel management system (OHMS) is a software platform that enables hotel managers to efficiently manage their daily operations using MERN.

- **E-commerce-project (React JS):**

  In this project I had create an E-commerce website using React JS and JavaScript. In this website we can add or remove product in cart and display total count and total amount of product present in cart using API calls and node server.

- **Photo Gallery using Web Development (HTML 5, CSS 3, JAVASCRIPT):**

  In this project I had design a sliding gallery that will show the image thumbnail on the top and when we click on the thumbnail, it will show the image just below the thumbnail.
